

1 DEC 1981

MEMORANDUM FOR: Chief, Special Security Center

FROM:   
Chief, Industrial Security Branch

SUBJECT: Draft DCID 1/19

25X1

The proposed revision of DCID 1/19 has been reviewed, and the following comments are offered for your consideration:

25X1

- b. The statement that need-to-know determination is made by an authorized holder of SCI classified information (page 7, paragraph 3) implies any authorized holder may make such a determination independently, not requiring the Program Manager or SIO.
- c. "Proximity" approvals (Pages 8 through 11), a new and interesting concept, should be better defined. At the present time a company guard, for example, would not (should not, at least) know that there was an intelligence interest, much less a special intelligence interest.
- d. Close, continuing personal associations with foreign nationals (Page 12, paragraph 10) by persons with SCI access are of security concern, and they should be reported. To wait for undue interest in employment or sensitive national security matters to occur is too late.
- e. Along with the many questions regarding portion marking (page 21, paragraph 24), it is suggested that working materials should not be excluded from classification controls when disseminated outside the office of origin.

25X1

WARNING NOTICE  
INTELLIGENCE SOURCES  
AND METHODS INVOLVED

f. ADP media items (page 25, paragraph a) need to be labeled in some conspicuous and somehow permanent or semi-permanent manner. Peel-off labels, for example, are generally not satisfactory. Some problem exists with photographic media (page 25, paragraph b).

g. Recordkeeping (page 28, paragraph a[1]) as described is very confusing. If this means a record is only required for SCI documents received in the preceding 6 months, and no accountability, not even destruction certification, is necessary while the documents are charged to the SCIF, it certainly rewrites the book on document control.

h. It is suggested that a fixed time limit be established for "working papers" (page 29, paragraph c) to be destroyed or become accountable documents.
